Neurological Research

A journal of progress in Neurosurgery and Neurosciences

Volume 12

SUBJECT INDEX

5-lipoxygenase inhibitor
  ischaemia, leukotriene, oedema, brain; 165
Adeoma, pituitary
  transsphenoidal surgery, visual loss; 23
Ageing
  transcranial Doppler, blood flow, cerebral; 187
Amino acid neurotransmitters
  ischaemia, focal, basal ganglia, cerebral artery occlusion; 231
Aneurysm, cerebral
  megadolichobasilar anomaly; 54
Aneurysm, intracranial
  cerebral blood flow, subarachnoid haemorrhage, postoperative monitoring; 214
Aneurysm, berry
  pathology; 29
Angioplasty
  basilar artery, intravascular surgery; 12
Arachidonic acid
  subarachnoid haemorrahge, methylprednisolone, vasospasm; 111
Artery occlusion, cerebral
  oxygenation, ischaemia, model; 219
Astrocytoma
  GTP-binding protein, immunohistochemical staining; 223
Basal ganglia
  ischaemia, focal, amino acid neurotransmitters, cerebral artery occlusion; 231
Basilar artery
  angioplasty, intravascular surgery; 12
Blood flow, cerebral
  intracranial pressure, intracranial mass lesion, decompression; 153, 147
  transcranial Doppler, ageing; 187
Brain resuscitation
  ischaemia, brain, hypotension, NMR spectroscopy; 195
Calcium channel blockers
  ischaemia, intracranial pressure, cerebral blood flow; 60
Cardiovascular surgery
  carotid endarterectomy, perfusion pressure; 35
Carotid arteries
  saccular aneurysms, model; 260
Carotid artery occlusion
  ischaemia, cerebral, electromagnetic radiation; 95
  ultrasound diagnosis, echography, ischaemia; 75
Carotid artery occlusion, asymptomatic
  positron emission tomography, Doppler ultrasound; 89
Carotid endarterectomy
  cardiovascular surgery, perfusion pressure; 35
Cavernous angiomas, familial
  computed tomography; 131
Cerebral artery occlusion
  ischaemia, focal, amino acid neurotransmitters, basal ganglia; 231
Cerebral blood flow
  aneurysm, intracranial, subarachnoid haemorrhage, postoperative monitoring; 214
  ischaemia, cerebral, fluosol-DA; 17
  ischaemia, intracranial pressure, calcium channel blockers; 60
  endarterectomy, carotid, Doppler ultrasound; 26
  oxygen consumption, cerebral, salbutamol; 169
  pseudotumour cerebri, idiopathic, hyperaemia; 226
Cerebral circulation
  ischaemia, pressor response, X-ray angiography; 49
Cerebral tissue
  preservation; 57
Cerebrospinal fluid factors
  subarachnoid haemorrhage, collagen; 41
Choroid plexus
  sex steroids, corticosteroids, CSF; 181
Clinical management
  aneurysm, ischaemia, cerebral, subarachnoid haemorrhage; 3
Collagen
  subarachnoid haemorrhage, cerebrospinal fluid factors; 41
Computed tomography
  cavernous angiomas, familial; 131
Corticosteroids
  choroid plexus, sex steroids, CSF; 181
CSF
  choroid plexus, sex steroids, corticosteroids; 181
CSF pressure
  vasopressin, intracerebroventricular infusion; 83
CSF pulsatility
  hydrocephalus, intracranial compliance, respiration; 67
CSF system
  intracranial pressure, tissue elasticity; 123
Doppler ultrasound
  carotid artery occlusion, asymptomatic, positron emission tomography; 89
  endarterectomy, carotid, cerebral blood flow; 26
  severe brain damage; 205
Echography
  carotid artery occlusion, ultrasound diagnosis, ischaemia; 75
Electromagnetic radiation
  carotid artery occlusion, ischaemia, cerebral; 95
Empty sella
  intracranial pressure, puberty, retarded, hydrocephalus; 99
Endarterectomy, carotid
  cerebral blood flow, Doppler ultrasound; 26
Evoked cerebral potentials
  vestibular ocular reflex, head rotations; 137
Fluorometry
  ischaemia, brain, redox state, four-vessel occlusion; 243
Fluosol-DA
  cerebral blood flow, ischaemia, cerebral; 17
Four-vessel occlusion
  ischaemia, brain, redox state, fluorometry; 243
GTP-binding protein
  astrocytoma, immunohistochemical staining; 223
Head rotations
  vestibular ocular reflex, evoked cerebral potentials; 137
Histopathology
  saccular aneurysms, pathogenesis, literature review; 249
  saccular aneurysms, pathogenesis, model; 260
Hydrocephalus
  CSF pulsatility, intracranial compliance, respiration; 67
  intracranial pressure, empty sella, puberty, retarded; 99
Hyperaemia
  pseudotumour cerebri, idiopathic, cerebral blood flow; 226
Hypotension
  ischaemia, brain, brain resuscitation, NMR spectroscopy; 195
Immunohistochemical staining
  astrocytoma, GTP-binding protein; 223
Immunotherapy, malignant gliomas, interleukin-2; 265
Infarction reduction
  ischaemia, model; 237
Infusion test
  intracranial pressure; 176
Interleukin-2, immunotherapy, malignant gliomas; 265
Intracerebroventricular infusion
  vasopressin, CSF pressure; 83
Intracranial compliance
  hydrocephalus, CSF pulsatility, respiration; 67
Intracranial mass lesion, decompression
  blood flow, cerebral, intracranial pressure; 147, 153
Intracranial pressure
  blood flow, cerebral, intracranial mass

lesion, decompression; 147, 153
CSF system, tissue elasticity; 123
empty sella, puberty, retarded, hydrocephalus; 99
ischaemia, cerebral blood flow, calcium channel blockers; 60
infusion test; 176
Intravascular surgery
angioplasty, basilar artery; 12
vasospasm, subarachnoid haemorrhage; 103
Intravascular therapy
vasospasm, subarachnoid haemorrhage; 103
Ischaemia
artery occlusion, cerebral, oxygenation, model; 219
carotid artery occlusion, ultrasound diagnosis, echography; 75
infarction reduction, model; 237
intracranial pressure, cerebral blood flow, calcium channel blockers; 60
leukotriene, oedema, brain, 5-lipoxygenase inhibitor; 165
pressor response, X-ray angiography, cerebral circulation; 49
Ischaemia, brain
hypotension, brain resuscitation, NMR spectroscopy; 195
redox state, four-vessel occlusion, fluorometry; 243
Ischaemia, cerebral
aneurysm, subarachnoid haemorrhage, clinical management; 3
carotid artery occlusion, electromagnetic radiation; 95
cerebral blood flow, fluosol-DA; 17
NMR spectroscopy; 106
thrombolytic agents; 78, 81
Ischaemia, focal
amino acid neurotransmitters, basal ganglia, cerebral artery occlusion; 231
Ischaemia, hindbrain
RNA synthesis; 45
Ischaemia, repetitive cerebral
NMR spectroscopy, pathophysiological changes; 158
Leukotriene
ischaemia, oedema, brain, 5-lipoxygenase inhibitor; 165
Literature review
saccular aneurysms, histopathology, pathogenesis; 253
Malignant gliomas, interleukin-2, immunotherapy; 265
Megadolichobasilar anomaly
aneurysm, cerebral; 54
Methylprednisolone
subarachnoid haemorrhage, arachidonic acid, vasospasm; 111
Model
artery occlusion, cerebral, oxygenation, ischaemia; 219
ischaemia, infarction reduction; 237
saccular aneurysms, carotid arteries; 256
saccular aneurysms, histopathology, pathogenesis; 260
Neurons, habenula
raphe stimulation, pain suppression; 117
NMR spectroscopy
ischaemia, brain, hypotension, brain resuscitation; 195
ischaemia, cerebral, 106
ischaemia, repetitive cerebral, pathophysiological changes; 158
Oedema, brain
ischaemia, leukotriene, 5-lipoxygenase inhibitor; 165
Oxygen consumption, cerebral
cerebral blood flow, salbutamol; 169
Oxygenation
artery occlusion, cerebral, ischaemia, model; 219
Pain suppression
neurons, habenula, raphe stimulation; 117
Pathogenesis
saccular aneurysms, histopathology, literature review; 249
saccular aneurysms, histopathology, model; 260
Pathology
aneurysm, berry; 29
Pathophysiological changes
ischaemia, repetitive cerebral, NMR spectroscopy; 158
Perfusion pressure
cardiovascular surgery, carotid endarterectomy; 35
Positron emission tomography
carotid artery occlusion, asymptomatic, Doppler ultrasound; 89
Postoperative monitoring
aneurysm, intracranial, cerebral blood flow, subarachnoid haemorrhage; 214
Pressor response
ischaemia, X-ray angiography, cerebral circulation; 49
Preservation
cerebral tissue; 57
Pseudotumour cerebri, idiopathic
cerebral blood flow, hyperaemia; 226
Puberty, retarded
intracranial pressure, empty sella, hydrocephalus; 99
Raphe stimulation
neurons, habenula, pain suppression; 117
Redox state
ischaemia, brain, four-vessel occlusion, fluorometry; 243
Respiration
hydrocephalus, CSF pulsatility, intracranial compliance; 67
RNA synthesis
ischaemia, hindbrain; 45
Saccular aneurysms
carotid arteries, model; 256
histopathology, pathogenesis, literature review; 249
histopathology, pathogenesis, model; 260
Salbutamol
oxygen consumption, cerebral, cerebral blood flow; 169
Severe brain damage
Doppler ultrasound; 205
Sex steroids
choroid plexus, corticosteroids, CSF; 181
Subarachnoid haemorrhage
aneurysm, intracranial, cerebral blood flow, postoperative monitoring; 214
aneurysm, ischaemia, cerebral, clinical management; 3
collagen, cerebrospinal fluid factors; 41
vasospasm, intravascular surgery; 103
Thrombolytic agents
ischaemia, cerebral; 78, 81
Tissue elasticity
CSF system, intracranial pressure; 123
Transcranial Doppler
blood flow, cerebral, ageing; 187
Transsphenoidal surgery
visual loss, adenoma, pituitary; 23
Ultrasound diagnosis
carotid artery occlusion, echography, ischaemia; 75
Vasopressin
intracerebroventricular infusion, CSF pressure; 83
Vasospasm
subarachnoid haemorrhage, arachidonic acid, methylprednisolone; 111
subarachnoid haemorrhage, intravascular surgery; 103
Vestibular ocular reflex
evoked cerebral potentials, head rotations; 137
Visual loss
transsphenoidal surgery, adenoma, pituitary; 23
X-ray angiography
ischaemia, pressor response, cerebral circulation; 49
